# Project Profile

<b>Project Title:</b>	Wanderlust - Adventures			
<b>Description:</b>	Wanderlust – Adventures Tour Booking System is an intuitive web platform for exploring and reserving personalized tours. It sends email confirmations and enables administrators to quickly add, manage, and monitor tour packages and reservations.			
<b>Objective:</b>	To create a user-friendly platform that streamlines tour bookings with automated email confirmations and provides seamless management of tour packages and reservations for administrators.			
<b>Project Category:</b>	Web Site			
<b>Tools Used / Required:</b>	<p><b><u>Development side</u></b></p> <p>➤ <b>Hardware:</b></p> <ul style="list-style-type: none"><li>✓ 12th Gen Intel(R) Core(TM) i5-1240P</li><li>✓ <b>RAM:</b> Minimum 64GB</li><li>✓ <b>Operating System:</b> Windows 11</li></ul> <p>➤ <b>Software:</b></p> <ul style="list-style-type: none"><li>✓ <b>Operating System:</b> Windows 11</li><li>✓ <b>Front End:</b> HTML, CSS, JavaScript, React.js</li><li>✓ <b>Middleware:</b> Postman</li><li>✓ <b>Back End:</b> Node.js, Express.js</li><li>✓ <b>Database:</b> MongoDB</li></ul>

# Project Overview: Core Functionality

## Mission Statement

To provide a seamless online platform for users to discover, book, and confirm tour packages independently.

## Key Features

Tour Package Listings, Booking System, Automated Confirmation.

## Technologies Used

React.js, Node.js, MongoDB

“

This platform features a typical tour package listing page where users can easily browse through various travel options. Each listing displays key information such as the destination, travel dates, price, and duration. The design is visually appealing and user-friendly, allowing users to quickly identify and select their preferred tour packages.

# Expected Outcome

Our website is expected to provide multiple benefits, such as:

- 
- We are planning to build make user friendly ui.
  - Easy to accessible by people.
  - There should be map and detailed address of tour packages.

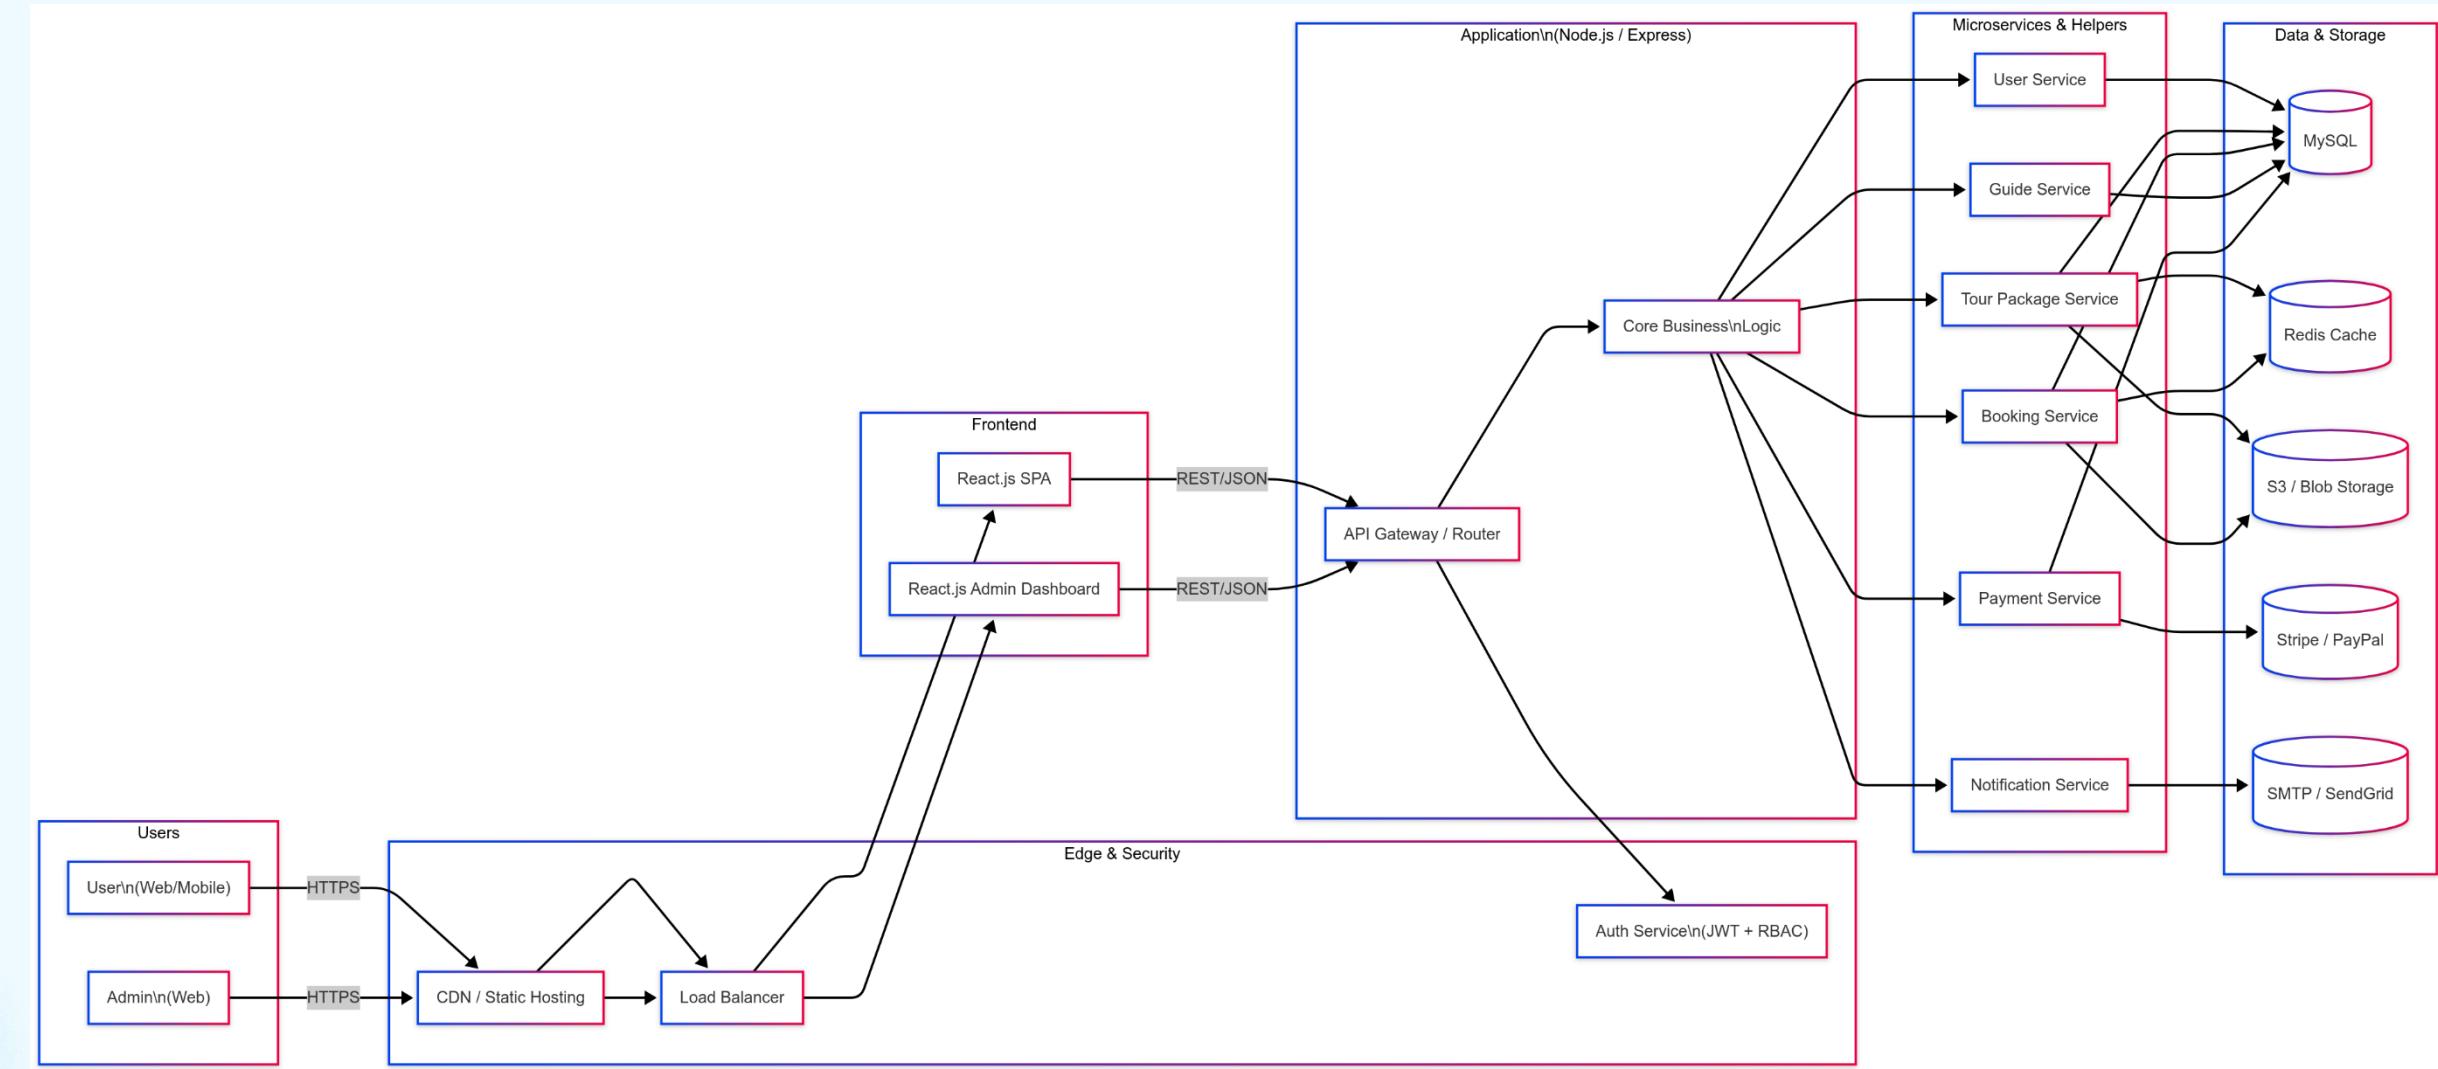

# Expected Outcome

Our website is expected to provide multiple benefits, such as:

- 
- Search options for better user experience.
  - Reviews options so that others can get an idea about tour management.

# Overall System Architecture

## System Architecture Diagram

# Diagram Breakdown

## II : Frontend

- **React.js SPA:** Public interface.
- **React.js Admin Dashboard:** Back-office interface.

## IV : Application Layer

- **API Gateway / Router:** Single entry point for all HTTP requests.
- **Core Business Logic:** Orchestrates calls to microservices.

## I : Users

- **User (Web/Mobile):** Browses packages, books tours.
- **Admin (Web):** Manages users, packages, bookings, guides.

## III: Edge & Security

- **CDN / Static Hosting:** Serves the compiled React apps.
- **Load Balancer:** Distributes incoming requests across backend instances.
- **Auth Service:** Issues/verifies JWTs and enforces role-based access control.

# Diagram Breakdown

## VI : Data & Storage

- **MySQL:** Primary relational datastore.
- **Redis:** Caching layer for frequently accessed data (e.g., package lists, sessions).
- **S3 / Blob Storage:** Stores tour images and other media.
- **Stripe / PayPal:** External payment gateways.
- **SMTP / SendGrid:** Email delivery for confirmations and alerts.

5

6

## V: Microservices & Helpers

- **User, Package, Booking, Guide Services:** Handle their respective domains.
- **Payment Service:** Integrates with Stripe/PayPal.
- **Notification Service:** Sends emails via SMTP or SendGrid.

# Scope of Work

## 1 User-Facing Features

### Authentication & Authorization

- User registration, login/logout
- Password hashing and secure session management (JWT)

### Tour Discovery & Details

- Browse list of available religious tour packages
- Filter by date, group size, price, or location
- View detailed itinerary, pricing, group-size limits, and guide profiles

### Booking Workflow

- Select travel date, group size, special requests
- Integrate with a mock payment gateway for “Paid”/“Unpaid” status
- Booking confirmation page and email notification

### User Dashboard

- View current and past bookings
- Download booking invoices/receipts
- Edit profile and change password

# Scope of Work

## 2 Admin-Facing Features

### User Management

- CRUD operations on user accounts (activate/block)
- Role-based access control (admin vs. super-admin)

### Tour Package Management

- Create/edit/delete packages (name, category, dates, price, description, images)
- Assign or reassign tour guides
- Activate/deactivate packages

### Booking Oversight

- View all bookings, change status (Pending/Confirmed/Cancelled)
- Issue refunds or mark payments as refunded

### Guide Management

- CRUD on guide profiles (bio, contact, availability)

# Features of The System

## a. Technological Features

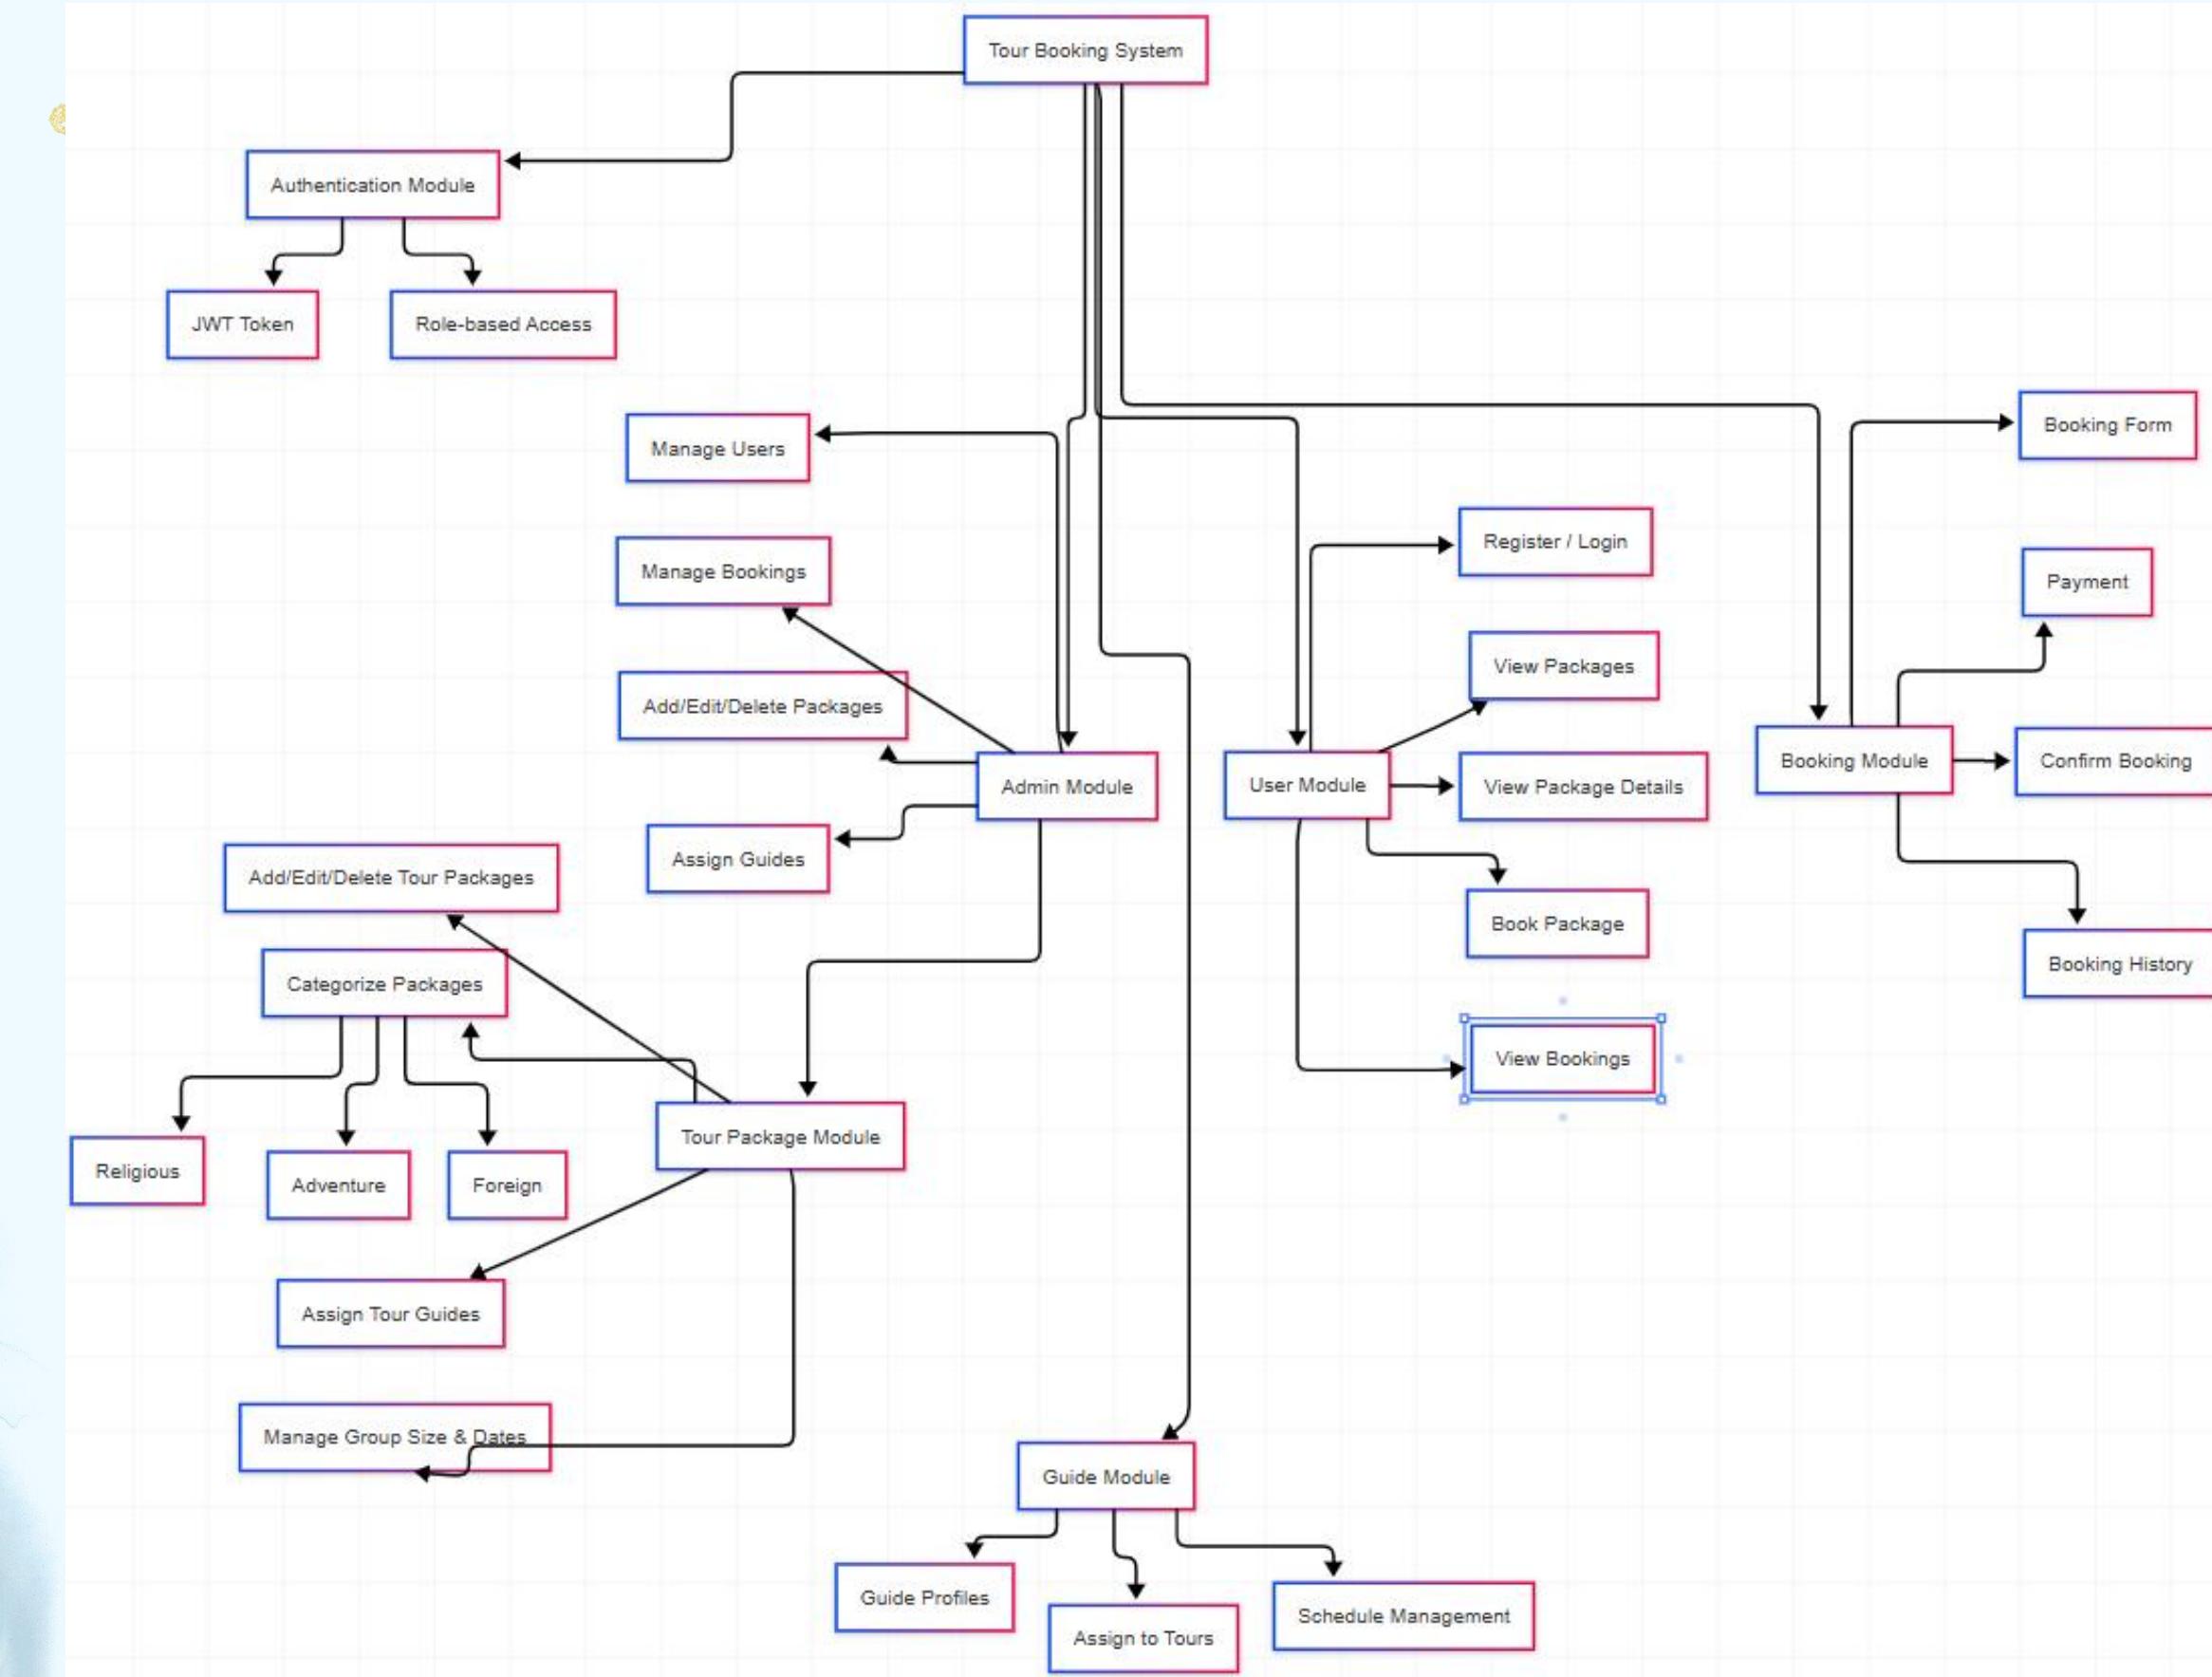

- **SPA Frontend** built with React.js (Vite) and Bootstrap 5.3.3 for a fast, responsive UI.
- **RESTful API** layer implemented in Node.js with Express.js, ensuring clear separation of concerns.
- **JWT-Based Authentication & RBAC**, issuing and validating tokens for secure user/admin access.
- **MySQL Relational Database** with well-defined schema, foreign-key constraints, and timestamp auditing.
- **Media Storage** via AWS S3 (or local filesystem) for tour images, served through signed URLs.
- **Email Integration** using SMTP or SendGrid for booking confirmations and notifications.

## b. Technological Features

- **User Management:** Registration, login/logout, profile editing, password reset.
- **Package Discovery:** Browse, filter (by date, location, price), and sort tour packages.
- **Package Details:** View itineraries, pricing, group-size limits, and assigned guide profiles.
- **Booking Workflow:** Select dates/group size, enter details, mock payment flow, and receive confirmation.
- **User Dashboard:** View current/past bookings, download receipts, and track payment status.
- **Admin Dashboard:** CRUD operations on users, packages, bookings, and guides.
- **Guide Assignment:** Assign or reassign guides to specific tour packages.
- **Booking Oversight:** View all bookings, update status (Pending/Confirmed/Cancelled), and issue refunds.

# Landing Page :

The screenshot shows a web browser window titled "Wanderlust Adventure | Tour M..." with the URL "localhost:8080". The page has a light green header bar with a sunburst graphic. Below the header is a navigation bar with links for "Home", "Tours", "About Us", "Contact", "Contact Us" (highlighted in blue), and "Log Out". The main content area has a dark blue background with white text. A large heading "Discover the World with Wanderlust Tours" is centered. Below it is a subtext "From spiritual journeys to thrilling adventures, we craft experiences that stay with you forever." There are two blue buttons: "Browse Tours" and a placeholder button. At the bottom, there are three callout boxes: "Spiritual Getaways" (blue icon), "Group Adventures" (blue icon), and "Affordable Packages" (blue icon). Each box contains a brief description.

Browse Tours →

Spiritual Getaways

Experience divine destinations like Kedarnath, Badrinath, Tirupati, and more with guided comfort.

Group Adventures

Thrilling packages for groups – trek the Himalayas, explore forests, or go white-water rafting.

Affordable Packages

We offer budget-friendly and all-inclusive tours to ensure your experience is worry-free.

## Description :

- First screen users see, with project branding and navigation menu.
- It allows exploration of tour categories and quick access to Tours, About Us, and Contact.

“

# Landing Page :

The screenshot shows a web browser window for 'Wanderlust Adventure | Tour M...' at 'localhost:8080'. The page features a light green header with the 'Wanderlust' logo, navigation links for Home, Tours, About Us, Contact, a 'Contact Us' button, and a 'Log Out' button. The main content area has a blue background with gold leaf patterns. The title 'Our Services' is centered above a sub-headline: 'Explore worry-free with our all-in-one travel planning and support'. Below this are six service cards arranged in two rows of three. Each card includes an icon, a title, and a brief description.

Icon	Title	Description
Map icon	Custom Tour Packages	Personalized travel packages based on your interests, group size, and budget.
Calendar icon	Flexible Scheduling	Choose from fixed departures or customize your travel dates at your convenience.
Bus icon	Transport Arrangements	Comfortable and safe transport including buses, cabs, and airport pickups.
Shield icon	Safety & Security	We prioritize your safety with trained guides and verified accommodations.
Globe icon	Global & Local Tours	From spiritual pilgrimages to international adventures — we've got it all.
Phone icon	24/7 Customer Support	Our team is always available to assist you before, during, and after your trip.

## Description :

- Services screen lists six core offerings as cards—custom packages, flexible scheduling, transport, safety & security, global/local tours, and 24/7 support.
- Enables users to quickly explore and select travel assistance features.

“

# Landing Page :

The screenshot shows a web browser window for 'Wanderlust Adventure | Tour M...' at 'localhost:8080'. The page has a light green header bar with the title, a back/forward button, a refresh icon, and a search bar. Below the header is a navigation bar with links for 'Home', 'Tours', 'About Us', 'Contact', 'Contact Us' (with a phone icon), and 'Log Out'. A sidebar on the left lists 'Vadodara Municipal...' and 'Gemini'. On the right, there's a 'All Bookmarks' section. The main content area features a title 'What Our Travellers Say' and a subtitle 'Hear from those who've explored with us on unforgettable journeys'. Three testimonial boxes are displayed, each with a star rating and a quote from a traveler. The first box is for Aarti Desai, a Kedarnath Tour Traveller. The second is for Raj Malhotra, a 4-Dham Yatra Group Leader. The third is for Sneha Reddy, a Tirupati Pilgrim. At the bottom, a large blue banner asks 'Ready to explore your next destination?' and encourages users to 'Discover unforgettable journeys with Wanderlust Tours — we plan, you travel stress-free.' It includes a 'Book Now' button with a right-pointing arrow and a white input field.

## What Our Travellers Say

Hear from those who've explored with us on unforgettable journeys

★★★★★

"The Kedarnath Yatra was a divine experience. Everything was organized so smoothly — from transport to temple darshan. Thank you for a memorable journey!"

 Aarti Desai  
Kedarnath Tour Traveller

★★★★★

"Our group of 15 people had an unforgettable trip. The itinerary was perfect, guides were helpful, and accommodations exceeded expectations."

 Raj Malhotra  
4-Dham Yatra Group Leader

★★★★☆

"Great planning and excellent service throughout the Tirupati Dham trip. Felt safe and comfortable the whole time. Highly recommend it!"

 Sneha Reddy  
Tirupati Pilgrim

## About Wanderlust

Memorable journeys crafted with care, comfort, and cultural connection

## Our Story

Founded in 2023, Wanderlust Tours began with a passion for exploring sacred destinations and sharing enriching experiences with like-minded travelers.

What started with a handful of pilgrimage tours has grown into a trusted travel companion for thousands, offering curated religious, adventure, and international tour packages.

We blend spirituality, excitement, and convenience to give every traveler an experience they'll cherish for a lifetime.

Founded in  
**2023**

“

# Landing Page :

The screenshot shows a web browser window with a light green header bar. The title bar reads "Wanderlust Adventure | Tour M..." and the address bar shows "localhost:8080/about". The page itself has a white background with a decorative gold confetti border. At the top left is a logo for "Wanderlust" with a blue icon. To its right are navigation links: Home, Tours, About Us, Contact, and two blue buttons for "Contact Us" and "Log Out". A small text box in the upper right corner says "Founded in 2023". Below this is a dark rectangular image showing people in a travel setting. The main content area features a section titled "Our Core Values" with three items: "Authenticity" (blue icon of a key), "Care" (blue icon of a shield), and "Flexibility" (blue icon of a clock). Each value has a brief description below it.

## Wanderlust

We blend spirituality, excitement, and convenience to give every traveler an experience they'll cherish for a lifetime.

Founded in  
**2023**

## Our Core Values

These principles guide everything we do

### Authenticity

We offer culturally rich and immersive travel experiences that reflect the essence of each destination.

### Care

Every tour is planned with your comfort and safety in mind, ensuring a worry-free journey.

### Flexibility

Customizable packages and responsive support let you travel the way you want.

# Landing Page :

The screenshot shows a code editor interface with a dark theme. The top bar includes standard menu items like File, Edit, Selection, View, Go, Run, and a search bar labeled "Tourism - Copy". The left sidebar contains icons for file operations such as Open, Save, Find, Replace, and Settings. The main editor area displays a JavaScript file named "dataImport.js". The code is as follows:

```
src > Data > dataImport.js > ...
1 const dotenv = require('dotenv')
2 const mongoose = require('mongoose')
3 const fs = require('fs');
4 const Tour = require('../models/toursModels');

5
6 dotenv.config({ path: '../../.env' }); // Two levels up from src\Data to the root
7
8 // console.log(process.env.DATABASE_URL); // if other file is not in same root file
9 // you must give the path.

10
11 console.log("Import File is Run");
12 // console.log('DATABASE_URL:', process.env.DATABASE_URL);
13
14 mongoose.connect(process.env.DATABASE_URL,{
15 })
16   .then(()=>console.log('DB-Connection Succesfully ...'))
17   .catch((err)=>console.log(err))

18
19
20 // Read JSON File
21 const tour = JSON.parse(fs.readFileSync(`tours.json`, 'utf-8'));
22 // console.log(tour)
23
24 // Import Data into Database.

25
26 const importData = async()=>{
27   try {
28     await Tour.create(tour)
29     console.log('Tour Create Succesfully ...');
30   } catch (err) {
31     console.log(`Error: ${err}`);
32   }
33 }
```

# Landing Page :

The screenshot shows a code editor interface with a dark theme. The top bar includes standard menu items like File, Edit, Selection, View, Go, Run, and a search bar labeled 'Tourism - Copy'. The left sidebar contains icons for file operations such as Open, Save, Find, Replace, and Settings. The main editor area displays a JavaScript file named 'dataImport.js'. The code defines two asynchronous functions: 'importData' and 'deleteTour', both using the 'async' and 'await' keywords. It also includes conditional logic based on command-line arguments ('process.argv[2]') to either import or delete data.

```
const importData = async ()=>{
    try {
        await Tour.create(tour)
        console.log('Tour Create Succesfully ...');
    } catch (error) {
        console.log("Error in Tour Create"+ error);
    }
    process.exit()
}

const deleteTour = async ()=>{
    try {
        await Tour.deleteMany();
        console.log('Data Delete Succesfully');
    } catch (error) {
        console.log('Error in Delete the Data ...');
    }
    process.exit()
}

// importData()
// console.log(process.argv);
if(process.argv[2] === '--import'){
    importData()
}
else if(process.argv[2] === '--delete'){
    deleteTour()
}
```
